Stop==Look==Listen VOTE NO

on the following venomous proposed amendment to the Constitution of dear old Michigan if you consider yourself a worthy American citizen.

Section 16. All residents of the State of Michigan between the ages of five and sixteen years shall attend the public school in their respective districts until they have graduated from the eighth grade, provided that in the districts where the grades do not reach the eighth, then all persons herein described in such districts shall complete the course taught therein.

YES ☐

NO ☒

This proposed amendment is UNWORTHY YOUR SUPPORT because it is designed to stir up religious prejudice, encourage bigotry, and throw the religious question into politics, and is based upon an appeal to the lowest and meanest instinct in man—Religious fanaticism.

It Is Hypocritical

because the promoters pretend to be defending the public schools, which are not attacked, when in reality they are the aggressors and are trying to destroy private schools to further their own fanatical ends.

It is an Insult to our Dead Heroes

because it is founded on the fallacy that private schools breed treason, a lie that throws a shadow across the graves of all the thousands of graduates of private schools who gladly laid down their lives on the altar of patriotism.

It is Impractical

because abolition of private schools would swamp the public schools and cause hopeless confusion which would handicap the education of children for years to come, to say nothing of an enormous increase of our taxes.

Our Superintendent of Public Instruction, Mr. Johnson, is unalterably opposed to the amendment and says "there is in the amendment a vicious danger to the pride of our State—the public school system."

The Michigan laws now require that all private schools in the State of Michigan teach the same branches as are now taught in the public schools, requires that all teaching be in English, requires that all children between the ages of five and sixteen years attend school—is not this enough school law?
